

LIST OF PUBLICATIONS

1. "Indicating the High Speed Multi-Cylinder Internal Combustion Engine." S.A.E. Summer Meeting, French Lick, Indiana, June, 1926.
In addition it was reprinted in Transactions of S.A.E. in 1928 and in Ohio State Engineer for November, 1928.
2. "Some Uses of the High Speed Multi-Cylinder Indicator". Mechanical Engineering, mid-May, 1927.
3. "Discussion on 2". In Mechanical Engineering, Dec. 1927.
4. "The Mechanical Deterioration of Vehicles". S.A.E. Journal Dec. 1927.
5. "Testing of Motor Vehicles". Purdue Engineering Review, Jan. 1928.
6. "Improving Engine Performance". Annual Meeting Paper, S.A.E. Jan. 1928. Printed in S.A.E. Journal March, 1928 and in the Transactions for that year.
7. "Effects of Multiple Ignition on the Performance of a Small Engine." Bulletin No. 45, Engineering Experiment Station, Ohio State University, Sept. 1928.
8. "Bulletin Descriptive of the Jacklin High Speed Indicator" published in August, 1928.
9. "Outline of Proposed Research on Riding Qualities at Purdue University". October 15, 1928.
10. "Balancing Power Output in Multi-Cylinder Engines". Presented at summer meeting of S.A.E., Saratoga Lake, New York, June 26, 1929. Later published in the Journal and Transactions for that year.
11. "Predicting and Determining Vehicle Performance". Indiana Section S.A.E. Paper, Oct. 1930. Published serially, Automotive News, December, 1930.
12. "The Possibility of Increasing Fuel Economy". Annual Meeting Paper S.A.E., Detroit, Jan. 1929. Published in S.A.E. Journal and S.A.E. Transactions, 1929.
13. "Riding Qualities and Their Measurement". Indiana Section Paper, Dec. 1929. Unpublished but was repeated before the Indiana Engineers Society in 1930.
14. "With Ammon Swope, "Observations on Riding Qualities". Presented at Summer Meeting of the S.A.E., White Sulphur Springs, June 18, 1931.
15. "Selected Papers from Purdue University Automotive Service Conferences". Extension Series No. 29, Engineering Extension Department, Purdue University, Jan. 1933.

LIST OF PUBLICATIONS (Contd)

16. "Riding Comfort Analysis" with G. J. Liddell, Research Series No. 44, Engineering Experiment Station, Purdue University, May 1933.
17. "Stopping Vehicles". Series of notes prepared for presentation Before the Railroad Commission, State of Texas. Mag, 1932.
18. "Study of Weight Distribution". Unpublished.
19. "Alcohol-Gasoline Fuel Mixtures". 42 page Review of the literature and situations in 1936. Unpublished.
20. "Human Reactions to Vibration". Presented at Summer Meeting S.A.E., May 31, 1936 and printed in the Journal October, 1936 and in the Transactions for that year.
