Biography of Roy D. Bridges Jr.

Roy Dunbard Bridges, Jr., was born on July 19, 1943 in Atlanta Georgia. The family later moved to Gainesville, Georgia where Bridges grew up and graduated from Gainesville High School in Gainesville, Georgia in 1961. He won a Congressional appointment to the United States Air Force Academy Class of 1965 and was a distinguished graduate. He won a competitive engineering graduate school scholarship from the United States Air Force and entered Purdue University immediately following graduation from the Academy. He was awarded a Master's of Science from Purdue in 1966. He graduated from the United States Air Force Undergraduate Pilot Training at Williams AFB, Arizona, as a distinguished graduate in March 1967.

Assigned to Cannon AFB, New Mexico, for advanced pilot training in the F-100, he successfully completed the advanced course and was assigned to the 416th Tactical Fighter Squadron, Phu Cat Air Base, Republic of Vietnam, in January 1968. He completed 226 combat missions prior to the end of his tour in December 1968. Included in this total are 72 missions that he flew over North Vietnam and Laos in the F-100F during a four month Commando Saber Operation, "Misty," fast forward air control assignment. This unit was focused on discovering and destroying surface to air missiles in Route Package 1, interdicting supply routes, and suppressing enemy anti-aircraft artillery fire to aircrew rescues.

After his Vietnam tour, he taught flying training in the T-37 and was selected to attend the USAF Test Pilot School (named the USAF Aerospace Research Pilot School at the time.) In 1971, he graduated from the school with the Top Graduate Award and was assigned to Edwards AFB to test the next generation of close air support aircraft. He was one of five Air Force test pilots that participated in the competitive fly-off between the YA-9 and YA-10 and stayed on after the fly-off to test the upgrades to YA-10 that would be integrated into the production aircraft. He was also selected to complete the YA-10 Post Stall and Spin Test Program.

Following tours at Air Command and Staff College and the Pentagon, he returned to flight testing as part of the unit developing the F-117 stealth fighter. That tour was interrupted when he was chosen by NASA to be a Space Shuttle astronaut. He piloted the Challenger on the 19th Shuttle mission (STS 51-F) in July and August of 1985 for 126 orbits. He was selected for another flight on the Challenger that was scheduled for launch in May 1986.

After the Challenger accident in January 1986, his mission was canceled, and he was reassigned by the Air Force to command the Air Force's largest test wing at Edwards Air Force Base, California. Following his command of the test wing, he commanded the Eastern Space and Missile Center, Patrick AFB, Florida, and the Air Force Flight Test Center, Edwards AFB, California. He also served in several key staff positions for the Air Force Systems Command and the Air Force Materiel Command. He retired

from the Air Force after 31 years of service in July 1996 as a Major General. He was a Command Astronaut Pilot with over 4,460 flying hours in a variety of aircraft and spacecraft.

Following his career with the Air Force, he was selected by the National Aeronautics and Space Administration (NASA) to be the Center Director for the Kennedy Space Center, Florida and later as the Center Director for the Langley Research Center in Hampton, Virginia. He retired from the Senior Executive Service in December 2005 after over 40 years of public service to the nation following his graduation from the Academy. In 2006 he went on to become Director of Operations for Northrop Grumman Technical Services in Herndon, Virginia.

Throughout his career, Bridges received numerous awards and honors. He is the recipient of the Distinguished Service Medal; Defense Superior Service Medal with oak leaf cluster; Legion of Merit with oak leaf cluster; Distinguished Flying Cross with 2 oak leaf clusters; Meritorious Service Medal; Air Medal with 14 oak leaf clusters; Air Force Commendation Medal; NASA Space Flight Medal; NASA Certificate of Commendation; and the Dr. Kurt H. Debus Award, among many other awards.

Collection Description

Scope

The Roy D. Bridges Jr. papers (1957-2010; 68.90 cubic feet) document the extensive Air Force and NASA career of Roy D. Bridges Jr.

The papers include but are not limited to, artifacts, audio visual material, awards, books, briefs and records, certificates, clippings, clothing, correspondence, diaries, documents, flight logs, flight checklists and data files, along with Bridges' pilot kneeboard notes, medals, mementos, papers, photographs, scrapbooks, textbooks, research papers, and working papers.

Donated in multiple accessions over several years, each accession arrived with a detailed inventory that, in many cases, included explanatory notes by Bridges. These notes, a kind of commentary by Bridges, have been incorporated into this finding aid.

The papers are divided into nine series, and further information on the scope and content of the collection is located at the series and subseries levels:

Arrangement

1. Education, 1960-2009 (1.6 cubic feet). Contained in this series are brochures, class photographs, correspondence, grade reports, research papers, scrapbook, textbooks, and transcripts among other items from throughout Bridges' education. The series is arranged in chronological order and divided into four subseries, due to the extensive nature of his education. The subseries include; Gainesville High School, Gainesville, Georgia; United States Air Force Academy; Purdue University; and Student Pilot Training at Williams Air Force Base, Arizona (March 1966-March 1967.)

Of special note is a service project scrapbook; "Single Service Project '333', Key Club of Gainesville High School," from Bridges' senior year in high school. The project won first place at the Key Club International Convention, Philadelphia, PA, 1961, the year Bridges was president of the club. Also included is correspondence from his high school principal and ninth grade Science teacher.

Upon Bridges' graduation from Gainesville High School, Gainesville, Georgia in 1961, Bridges attended the United States Air Force Academy. He would become a distinguished graduate of the Academy, earning a Bachelor's degree of engineering science in 1965. This subseries contains various brochures, a Class of 1965 photograph, research papers, Astronautics textbooks used by Bridges, correspondence, and a folder; "United States Air Force Academy visit to Purdue University – School of Aeronautics, Astronautics and Engineering Sciences, February 12-13, 1965."

Upon his graduation from the USAFA in 1965, the Air Force sent Bridges to Purdue to earn a Master's degree. It took him only a year at Purdue to earn a Master of Science degree in astronautics. Items of special note in this subseries are a research report, "Space Radiation Hazards," written by Bridges and John Blaha (fellow Purdue alum and astronaut) while students at Purdue University for Mechanical Engineering 654 for which they received an A. A group research paper, "Mars Reentry Vehicle, Heat Shield Design," written for Purdue Professor Hoglund. Other items include Bridges' Purdue ID, parking pass, grade reports and transcripts.

After Bridges' graduation from Purdue University in 1966, he went on to student pilot training; Williams Air Force Base, Arizona (March 1966-March 1967), F-100 pilot, 524th Tactical Fighter Squadron, Cannon Air Force Base, New Mexico (March 1967-November 1968), United States Air Force Test Pilot School, Edwards Air Force Base, California (1971), and he was a distinguished graduate, Air Command and Staff College, Maxwell Air Force Base, Alabama in 1976. He furthered his education throughout his career, including attending the University of New Hampshire Executive Development Management Program, Durham in 1988. The last subseries, Student Pilot Training, 1966-1976, include items from this segment of Bridges' education. Among the items, but not limited to are exams and some assignments, manuals, research reports and textbooks.

2. Air Force Career, 1964-1996 (16.75 cubic feet). Major General Bridges' Air Force Career spanned 31 years. The 9 subseries follow his career path; F-100 pilot, 416th Tactical Fighter Squadron and Commando Sabre Operation (Misty), Phu Cat Air Base, Republic of Vietnam; Test Pilot, Air Force Flight Test Center, Edwards Air Force Base, California; Astronaut Application Process and Selection; Commander, 6510th Test Wing, Edwards Air Force Base, California; Commander, Eastern Space and Missile Center, Patrick Air Force Base, Florida; Deputy Chief of Staff, Test and Resources, Headquarters Air Force Systems Command, Andrews Air Force Base, Maryland; Commander, Air Force Flight Test Center, Edwards Air Force Base, California; Director of Requirements, Headquarters Air Force Materiel Command, Wright-Patterson Air Force Base, Ohio; and Air Force Retirement, and Span of Career Records.

There is a description of each subseries before each section in the finding aid. Some of the items consist of: Bridges' "Vietnam End of Tour Report," application for Aerospace Research Pilot, working files, various flight test documents, Bridges' astronaut applications, various briefings, memos and articles on the subject of conducting Air Force test operations efficiently and safely, along with documents from Bridges' many other numerous initiatives. One can also find newsletters, newspapers, flight logs, performance appraisals, Air Force span of career records, ending with retirement letters and cards of congratulations. Due to the extensive nature of this series, please refer to the detailed listing.

3. NASA Career, 1980-2010 (8.25 cubic feet). The NASA Career series is comprised of four subseries: Astronaut Career; Director, John F. Kennedy Space Center; Director, Langley Research Center; and NASA Publications.

The Astronaut Career subseries features Bridges' STS-51-F and STS 61-F "Files of Notes and Working Papers Related to Preparation," 1980-1986, and audio visual material directly related to the two missions. Also located in the series are STS 51-F flight logs, flight checklists and data files, along with Bridges' pilot kneeboard notes and cards. A few items that can be seen from the STS 61-F, Centaur mission are Bridges' "Deficiencies and Notebook" which he was preparing to take to orbit, and a small black notebook, which contains, per Bridges, "notes on meetings and issues from the time of the Challenger mishap until I left the astronaut program to become Wing Commander at Edwards AFB (Jan-May 1986). Most of the meetings had to do with issues with the Centaur upper stage that was to launch Ulysses into polar orbit around the sun. Rounding out the Astronaut Career subseries are issues of the newsletter, *Space News Round-up*," NASA Lyndon B. Johnson Space Center, August 9, 1985 – June 13, 1986.

The second subseries, Director, John F. Kennedy Space Center, covers many annual reports, briefing charts, implementation plans, strategic plans, reorganization documents and other papers from Bridges' tenure as Director, 1996-2002. Please refer to the listing in the finding aid for material in this subseries.

The third series, Director, Langley Research Center, includes Backup Discs (6) for Email and Files from Duties at Langley Research Center (Mac/Eudora Email), "Speeches," Briefings, NASA Engineering and Safety Center (NESC) papers, and Miscellaneous Documents.

The last subseries within Series 3. NASA Career is Subseries 4. NASA Publications. Found here are various NASA Publications that Bridges had collected over the years, 1978-2008. The publications are arranged in chronological order in archival boxes.

4. Career Scrapbooks, 1965-2009 (11 cubic feet). The career scrapbooks consist of an extensive collection of three-ring binders that Bridges put together throughout his Air Force and NASA careers. For the sake of archival integrity, the binders have been left in the order in which Bridges had arranged them. There are 31 binders that have been arranged in 2 subseries; Air Force and NASA and are further broken down into 11 sub-subseries which follow his career path. The contents of each page within the binders is listed in the finding aid. If Bridges provided a comment about the contents, this is noted in the finding aid too.

There is a wealth of material that is contained in the binders. Some of the items are: applications, appraisals, certificates, correspondence and letters of congratulations, notification of appointments, speaking notes, and various notes, emails, cards and miscellaneous items from his retirement. The binders also include photographs from

throughout his career, some signed and inscribed to Bridges. There are also photographs from the very first Space Shuttle flight.

One binder contains mission patches and astronaut autographs given as a departure gift from Kennedy Space Center by the Astronaut office in 2003. Four binders are devoted to Bridges' work on the Columbia Accident Investigation Board and Material Related to Public testimony to Columbia Accident Investigation Board, 2003. Please see the finding aid for further information and a detailed listing of items found within the 31 binders contained in this series. Since several binders reside in each box, look for a binder level description of contents versus box level.

5. Audio Visual, 1968-2007 (5.6 cubic feet). The audio visual material consists of a wide range of media and topics. It has been arranged by type of media (VHS, DVDs, CDs, audio tapes, and films) and placed in chronological order within each type. Some of the highlights are military Change of Command ceremonies, Space Shuttle related events, Bridges' "Last Flight at Edwards Air Force Base," a presentation by Bridges on the future of Kennedy Space Center, various Purdue astronaut alumni events, along with the Purdue University 2001 commencement ceremony when he received an honorary doctorate.

Also included are a PBS Frontline, "The Real Stuff," segment (reproduction is prohibited), "Cool Digs," a segment for "Newsstand" based on a tour of Bridges' office while he was Center Director of the NASA Kennedy Space Center, May 15, 2000, and "CAIB (Columbia Accident Investigation Board) Report Media Briefing," August 26, 2003. Due to the variety of topics, please refer to the listing within the finding aid.

6. Books and Journals, 1976-2010 (1 cubic foot). This series contains selected books and journals from Roy D. Bridges', Jr. personal library. Many of the books are of a historical nature relating to Air Force and NASA facilities, and aerospace and aeronautics in general. The book, Colorado's astronauts: In their own words, features Bridges on pages 18-20, along with his original submission for the book.

Many of the journals contain articles on the Space Shuttle, including the first launch, STS-1 of Space Shuttle Columbia on April 20, 1981.

Materials in the series are arranged in chronological order, with the books and journals in separate manuscript boxes.

7. Photographs, 1965-2010 (5.70 cubic feet). This series is comprised of three subseries: Air Force; NASA; and Oversized (16" x 20" matted). There are eight subseries with each described before their respective listings.

The earliest Air Force photographs feature Bridges in Cadet Wing Staff uniform, training class group photographs, and photographs from Vietnam and Commando Sabre Operation (Misty), Phu Cat Air Base, Republic of Vietnam, 1968. Also found in this series is a photo album which was presented to Bridges in July 1975 by Test

Operations on his departure from Edwards Air Force Base, California. It contains photographs of colleagues with inscriptions to Bridges. Other photographs from Bridges' Air Force career include a 419 Test Wing activation ceremony, Edwards Air Force Base, at which Bridges gave all new squadrons their flags at the ceremony, and photos from a Change of Command ceremony, Eastern Space and Missile Center, Patrick Air Force Base, Florida (1989-1990). Going Away and Legion of Merit ceremonies, while Bridges served as Deputy Chief of Staff, Test and Resources, Headquarters Air Force Systems Command. The Air Force subseries ends with numerous photographs from Bridges' visit to the French Air Force Test Facilities in 1992 and Major General Grouvalle's follow-up visit to the USAF Test Facilities, Edwards AFB, CA.

The highlights of the NASA subseries are of Bridges' career as an astronaut, and include his official astronaut photograph, including one in civilian clothes. There are various STS-51 crew and mission photographs, STS-61F crew photos and one of the launch of the Atlas/Centaur-66. There are 2 photo albums with the NASA seal and "Langley Research Center, Roy D. Bridges, Jr.," on the cover with various photos of Bridges' tour at Langley, and his going away at Kennedy Space Center, 2003-2005. The pages from the albums were placed in archival folders for preservation purposes but left in original order.

The nine photographs in the Oversized (OS) Box were separated out from the other series for preservation purposes. Most of these 16" x 20" photographs are matted and are from various moments in Bridges' career.

Please see Series 4. Career Scrapbooks and Series 9. Oversized Materials for other photographs.

8. Artifacts, 1957-2007 (13.85 cubic feet). Three subseries make up the Artifacts Series; Subseries 1. Awards, Diplomas, and Decorations; Subseries 2. Textiles, and Subseries 3. Medals and Miscellaneous Memorabilia. This is an extensive collection, so please see the finding aid for the detailed listing.

The material in the first subseries are in the form of certificates, plaques and 3-dimensional awards. Some of the highlights of the awards (certificates) are Bridges' Distinguished Flying Cross and Air Medals, Air Force Commendation medal, Defense Superior Service medal and Legion of Merit. Some of the oversized awards/certificates consist of Bridges' Commission as a 2nd Lieutenant in the United States Air Force, June 9, 1965; Lyndon B. Johnson Space Center Certificate of Commendation presented to Lieutenant Colonel Roy D. Bridges, July 1983; National Aeronautics and Space Administration Certificate of Appreciation, Roy D. Bridges, Colonel, United States Air Force, In Support of Presidential Commission investigating the Space Shuttle Challenger accident, circa 1986; Honorary Doctorate, Purdue University, May 12, 2001, and Certificate, NASA Medal for Outstanding Leadership, in recognition of outstanding leadership in providing the vision and direction needed

to establish the NASA Engineering and Safety Center, June 30, 2004, among many other awards, diplomas and decorations.

Some of the plaques of note are 416th Tactical Fighter Squadron and Commando Sabre Operation (Misty); Leithen-Tittle Distinguished Graduate award; United States Air Force Aerospace Research Pilot School, top graduate (1971); American Aeronautical Society Flight Achievement Award (1985) and B-1 Combined Test Force and United States Air Force Test Pilot School plaques (1989), and Air Force 35-year award – Kennedy Space Center (2000). There are various plaques presented by Purdue University, including the Purdue University Distinguished Astronaut Alumnus Award (1990).

The highlights of the Textiles Subseries are the Air Force Academy parade dress uniform and the Air Force Academy Class of '65 blazer Bridges wore during the time he attended Purdue University (1965-1966). Also included are his NASA flight suit with patches, and the Air Force flight suit and helmet worn by Bridges while he was Commander of the Air Force Flight Test Center (1991-1993). Along with his Air Force general officer's jacket worn throughout his Air Force career, and Air Force aviator jacket with Kennedy Space Center patch and Langley Research Center patch worn by Bridges while Director of both locations (1996-2005). A few other items of clothing round-out the textiles subseries.

The third subseries is Medals and Miscellaneous Memorabilia. Residing in this series are Henschel drafting instruments Bridges used in high school and college engineering drawing courses, circa 1957-1966; a small blue box containing uniform medals worn by Colonel Bridges, (Per Bridges, "not the complete set for my full career,") circa 1966-1996, and blue medium box with patches, medals and ribbons worn by Bridges during his military career and some NASA mission pins and commemorative items, (Per Bridges, "Top 4 medals worn on the General Officer's Uniform at my retirement in 1996; Mess Dress miniature medals; patches worn on my military flight suit; general officers belt buckle; various wings, space and parachute badges; various mission pins and commemorative items.), circa 1966-2005, along with 3, NASA Outstanding Leadership Medals.

Some of the miscellaneous items include, a small box containing numerous NASA mission patches, circa 1980-2005; a box containing numerous permits, passes, nametags, IDs, circa 1980-2005, and a small box containing miscellaneous coins and pins, circa 1980-2005.

The items in each of the archival boxes in this series have been placed in chronological order. Since the series contains a wide variety of items from throughout Bridges' career, please refer to the finding aid for a detailed listing.

9. Oversized Materials, 1967-2006 (5.15 cubic feet). The items in the Oversized (OS) Series were separated out from the other series for preservation purposes. This series includes numerous awards, drawings, mounted flown Space Shuttle patches,

personalized photographs, caricatures and mementos given to Bridges in appreciation of his service and leadership. Due to the varied nature of the material and the cumbersome size of the material, it is placed in chronological order within each box, but not throughout the entire series. Please see the complete finding aid listing.

Processing Information

Whenever possible, original order of the materials has been retained. All materials have been housed in polyester sleeves, acid-free folders, and acid-free boxes. Oversized [OS] artifacts have been separated and grouped into an individual series for preservation purposes. Some oversized photographs have been placed in a separate box at the end of the Photographs series, and a few other photographs can be found in the Oversized series.

DETAILED DESCRIPTION OF THE COLLECTION

Series 1. Education, 1960-2009

(1.6 cubic feet)

Subseries 1. Gainesville High School, Gainesville, Georgia, 1960-2009

(0.2 cubic feet)

Subseries Description: This subseries contains a scrapbook from an award winning Key Club service project Bridges took part in as president of the club during his senior year in high school. Also found in the subseries is correspondence from his principal and a 9th grade Science teacher.

Box 1 *Key Club, "Single Service Project" Scrapbook, and Correspondence, Gainesville High School, and Jefferson High School, 1960-2009*

Folder

1. Scrapbook, "Single Service Project '333', Key Club of Gainesville High School," 1960-1961 (The project won first place at the Key Club International Convention, Philadelphia, PA, 1961, the year Bridges was president of the club.)
2. Clipping, Key Clubbers Win State Prize. (1961, March 30). *The Daily Times*, p. 1. (includes photograph of Bridges)
3. Correspondence from Gainesville High School Principal, H. L. Strickland to Bridges in regards to the Activities of the Gainesville High School Key Club, 1961 and a note from John Thompson in regards to giving Bridges the scrapbook, undated
4. Letter of recommendation for Bridges, Elks Leadership Committee, written by H. L. Strickland, Gainesville High School Principal, February 10, 1961
5. Correspondence in regards to Bridges' 9th grade Science teacher at Jefferson High School, Mr. Lew Holliman, August 2009

Subseries 2. United States Air Force Academy, 1961-1965

(0.4 cubic feet)

Subseries Description: Found in this subseries are brochures, textbooks, papers, correspondence and transcripts from Bridges' time as a student at the Air Force Academy.

Box 2 Brochures, Textbooks, Papers, Correspondence and Transcripts, 1961-1965

Folder

1. Photograph, United States Air Force Academy, Class of 1965 – Cadet Squadron 24, Fall Semester, 1961

2. "Heilbroner Paper, Capitalist Philosophers," Econ 202, written by Bridges while he was a cadet at the United States Air Force Academy, November 6, 1962 (received A+)
3. Brochure, "Welcome to the 65th Air Division," Torrejon Air Base, Spain, February 5, 1963
4. Brochure, Royal Air Force Technical College, and various European pamphlets and maps, circa 1963
5. *Elementary Astronautics*, textbook used by Bridges at the USAF Academy, circa 1964 (includes notations by Bridges)
6. Correspondence announcing Bridges selection to the Cadet Professional Ethics Committee, Air Force Cadet Wing, United States Air Force Academy, Colorado, January 13, 1964
7. Correspondence to Bridges' parents in regards to Bridges' placement on the Superintendent's List for academic and military excellence, January 29, 1964
8. Rhodes Scholarship application and supporting documents, October 19, 1964
9. "Statement of Roy D. Bridges" for Rhodes Scholarship application, 1964
10. Correspondence in regards to interview process, Georgia Committee of Selection of Rhodes Scholarships, December 1964
11. Form, "Authority to Incur Indebtedness for Purchase of Automobile," Air Force Cadet Wing, United States Air Force Academy, Colorado, December 7, 1964
12. "A Manual for Students," Civilian Institutions Division, Air Force Institute of Technology, Air University, Wright-Patterson Air Force Base, Ohio, includes information and orientation fact sheets, February 1965
13. *Astro 551, Classical Vectorial Mechanics Basis for Astrodynamics*, Department of Astronautics, United States Air Force Academy, 1965 (Bridges' advanced Astro course textbook)
14. Folder, United States Air Force Academy visit to Purdue University – School of Aeronautics, Astronautics and Engineering Sciences, February 12-13, 1965
15. "Liquid and Solid Propellant Variable Thrust Rocket Engines," paper written by Bridges while he was a cadet at the United States Air Force Academy, Astro 464, March 16, 1965 (received an A)
16. Correspondence from Floyd W. McRae, Jr., Major, USAFR, USAF Academy Liaison Officer, in regards to Bridges role in the Candidate Advisory Service, March 25, 1965
17. "One Hundred Days," by Roy D. Bridges, *aerospace Newsletter*, March-April, 1965
18. Correspondence from Colonel Archie Higdon, USAF, Professor and Head Department of Mechanics, United States Air Force Academy, to Bridges, "Subject: Teaching at the USAF Academy," May 7, 1965
19. Debriefing report, Georgia Rhodes Scholarship Interview, June 2, 1965
20. Letter of congratulations from John Thompson, Gainesville, Georgia, in regards to Bridges' graduation from the United States Air Force Academy, June 2, 1965

21. Invitation, United States Air Force Academy, Graduation Ball, June 8, 1965
22. Transcripts, United States Air Force Academy, 1961-1965
23. Memorandum, "Subject: Student Flight Commander's Briefing, To: Capt. Westphal," undated (copy is difficult to read)

Subseries 3. Purdue University, West Lafayette, Indiana, 1965-1966

(0.4 cubic feet)

Subseries Description: The Purdue University subseries contains Bridges' Purdue identification card, research reports, including one he co-wrote with fellow Purdue alum John Blaha, and his student grade reports and transcripts.

Box 3 *Purdue University Identification Card and Research Reports, 1965-1966*

Folder

1. Purdue University Identification card and parking pass, 1965-1966
2. Research report, "Space Radiation Hazards," written by Bridges and John Blaha while students at Purdue University for Mechanical Engineering 654, January 10, 1966 (received an A)
3. Report on, "Mars Reentry Vehicle, Heat Shield Design," a student research paper written for Purdue Professor Hoglund. Bridges was a member of the project team; Ronald Aicale, Roy Bridges, Dennis Helfritch, Hsichun Hua, and Robert Humphreys, January 13, 1966
4. Student Grade Reports and Transcripts, Purdue University, 1965-1966

Subseries 4. Student Pilot Training, 1966-1976

(0.4 cubic feet)

Subseries Description: Material within this subseries includes textbooks, pilot training manuals, exams and a few assignments, various student reports, certificates, brochures and programs.

Box 4 *Student Pilot Training, Williams Air Force Base, Arizona, Cannon Air Force Base, New Mexico, and United States Air Force Aerospace Research Pilot School, Edwards Air Force Base, California, 1966-1971*

Folder

1. Certificate, "One 1st Lt. Roy Bridges is a member of the official military instantaneous acceleration society given at Physiological Training Unit, USAF Hospital, Williams AFB, Arizona," and brochure for "Rancho Bienestar, Chandler, Arizona, circa 1966

Folder

1. "ACSC Research Paper," Contains a research paper that Bridges wrote while at Air Command Staff College; "Realism in Operational Test and Evaluation for Close Air Support," 1976
2. "ACSC: Staff Comm. Research Papers," Contains several additional research papers completed while Bridges was a student at Air Command Staff College, 1976

Series 2. Air Force Career, 1964-1996

(16.75 cubic feet)

Subseries 1. F-100 pilot, 416th Tactical Fighter Squadron and Commando Sabre Operation (Misty), Phu Cat Air Base, Republic of Vietnam, 1968-1969
(0.1 cubic feet)

Subseries Description: Roy. D. Bridges was assigned to the 416th Tactical Fighter Squadron, Phu Cat Air Base, Republic of Vietnam in 1968. Between January 6 and July 14, 1968, he flew the F-100D with the 416th on close air support missions. During this time he was qualified as a flight lead and completed 149 combat missions. He volunteered to join the Commando Sabre Operation, 37th Tactical Fighter Wing, as a F-100F pilot and Forward Air Controller. Beginning on July 15, he flew 72 combat missions with Commando Sabre in its unique mission, visual reconnaissance and strike control over North Vietnam. Bridges was checked out as an instructor pilot during this tour. On November 10, 1968 he returned to the 416th to complete his Southeast Asia tour. This subseries includes his "Vietnam End of Tour Report," and clippings in regards to his tour of service.

Subseries 2. Test Pilot, Air Force Flight Test Center, Edwards Air Force Base, California, 1964-1990

(2.0 cubic feet)

Subseries Description: After returning from Vietnam, Bridges was assigned as an instructor pilot with the 3575th Pilot Training Squadron at Vance AFB, Oklahoma, from January 1969 to July 1970. He then attended Test Pilot School at Edwards AFB, California, graduating in July 1971, and serving as a Test Pilot at Edwards from July 1971 to July 1975. Major Bridges attended Air Command and Staff College at Maxwell AFB, Alabama, from August 1975 to June 1976, and then served as program element monitor for the F-15 and A-10 programs. He has logged more than 3,800 hours flying time in the following aircraft: T-2, T-28, T-33, T-37, T-38, T-41, A-37, A-7, A-9, A-10, B-26, B-52, B-57, F-100, F-104, NF-104, F-106, F-4, KC-135, and G-2 (Shuttle Training Aircraft). This subseries contains Bridges' application for Aerospace Research Pilot, working files, flight test cards, evaluations, test plans, briefings, technical reports, and other documents from Bridges' time at the AFFTC, Edwards Air Force Base, CA. There is an emphasis on the A-9A, A-10A, YA-9, YA-10, A-7 and A-10.

4. "A-10 Air Force Development Test and Evaluation Plan, Phase II & III DT&E/IOT&E," Blake B. Allred, Air Force Flight Test Center, Edwards AFB, California, June 1973, Revised April 1974, (Note: Bridges was the

Operations Officer of the A-10 Combined Test Force until July 1975 when he left Edwards AFB to attend the Air Command and Staff College. Bridges flew the first Air Force flight evaluation of the pre-production A-10A before departing.)

5. "Summary of Design Considerations for Airplane Spin-Recovery Parachute Systems," NASA TN D6866, Sanger M. Burk, Jr., Langley Research Center, Hampton, Virginia, August 1972. (Note: As project pilot for the YA-10A spin avoidance program, this was a reference book that Bridges used to prepare for this series of hazardous tests during which a spin recovery parachute was installed (but never used other than in functional tests before beginning to see how the aircraft would behave.)
6. "Background Information and User Guide for MIL-S-8391", FTC-TD-73-2, Patrick S. Sharp and Collet E. McElroy, Air Force Flight Test Center, Edwards AFB, California, March 1964. (Note: As project pilot for the YA-10A spin avoidance program, this was a reference book Bridges used to prepare for this series of hazardous tests.)
7. "A-10 Brief: Daedalians," This contains speaking notes and drafts of slides for a briefing that Bridges presented to the Maxwell AFB Chapter of Daedalians while attending the Air Command and Staff College at Maxwell AFB, August 1975-June 1976. (folder 1 of 2)
8. "SETP: Spin paper," Note: Continuation of above, August 1975-June 1976. (folder 2 of 2)
9. "A-10 Accident," This folder contains the "Rebuttal to Report of Non-USAF Major Aircraft Accident Involving A-10A Prototype, N/N 71-1370, 31 August 1972, dated 13 September 1972", which Bridges wrote after an accident board concluded that the cause of the accident in the YA-10 which Bridges was operating during a landing roll out was pilot error. He believed that the cause was a deficiency in the braking system. The Commander of the AFFTC concurred with his rebuttal, and the conclusions of the accident board were reversed. Subsequent to this accident, anti-skid brakes were installed on the aircraft. A number of photos of the accident are also included.

Subseries 3. Astronaut Application Process and Selection, 1977-1982
(0.4 cubic feet)

Subseries Description: Roy D. Bridges, Jr. submitted his first application for Space Shuttle Duty (Shuttle Pilot Program) on February 19, 1977. He was not selected the first time he applied and reapplied on October 30, 1979. He was selected as an astronaut candidate by NASA in May 1980. In November 1979 when informed of his selection by NASA Bridges was assigned to Detachment 3 of the Air Force Flight Test Center, Nellis Air Force Base, Nevada as a special projects officer. Beginning in July 1980 and ending in August 1981 Bridges completed a 1-year training and evaluation period at NASA. This series contains Bridges' astronaut applications,

clippings in regards to selections, correspondence related to the selection process, press releases, PowerPoint slides (copies), "Astronaut Candidate Training Program," Photographs, "NASA Astronaut Candidates Selected January 1980," and other miscellaneous documents.

Series 3. NASA Career, 1980-2010

(8.25 cubic feet)

Subseries 1. Astronaut Career, 1980-1986

(2.40 cubic feet)

Subseries Description: Some of the highlights of this subseries are files of notes and working papers related to Bridges' preparations for his STS-51-F mission and STS 61-F mission, which was later cancelled due to the Challenger accident; a diary with personal notes (1984-1985), and audio visual material directly related to the missions. Specific to STS 51-F are Bridges' original pilot's reference data, checklist/flight data file, original orbit pocket checklist, kneeboard cards/notes, teleprinter entry message by Bridges, pilot's kneeboard reference data for T-38 training flights, among other documents.

Even though the STS 61-F mission was cancelled the subseries contains the STS 61-F, Centaur description and notebook Bridges was preparing to take to orbit; details of Centaur flight computer screens, wiring diagrams, and other useful notes on the payload and flight information, along with a small black notebook containing

notes on meetings and issues from the time of the Challenger mishap until Bridges left the astronaut program in 1986. There is also a press kit for the first Space Shuttle mission and issues of the NASA Lyndon B. Johnson Space Center Newsletter, *Space News Roundup* from August 1985-June 1986.

Bridges served with NASA until May 1986, and completed one space flight as pilot of the Space Shuttle Challenger (OV-99) on mission STS-51F from July 29-August 6, 1985.

Subseries 2. Director, John F. Kennedy Space Center, 1997-2004
(2 cubic feet)

Subseries Description: After retiring from the Air Force, Bridges served as the director of NASA's John F. Kennedy Space Center (KSC) from March 1997 to August 2003. This subseries consists of 5 mss boxes of material from his tenure at KSC; annual reports, brochures, budget briefings, implementation plans and notes, and memos. Various reports, such as, "KSC Unique Shuttle Program and Center Relationships," and other background material for discussions on the Certification of Flight Readiness Process for Space Shuttle Launches; Notes on Lessons Learned from "KSC 2000" which was the name given to the first KSC Center-Wide Reorganization in many years; "The Role of Vision in KSC's Evolution and Strategic Management," Briefing slides that Bridges used to teach this subject to the managers at KSC; "Mars Program Independent Assessment Team Summary Report," March 14, 2000, among other reports. A few of the unique items include the press kit for STS-95 (John Glenn's return to space); Kennedy Space Center History Project, Mr. Roy Bridges' KSC Oral History, July 17, 2001 (includes 2 CD-ROMs and transcript), and "The Essence of the Story in the Center Director's Words," circa 2002

Subseries 3. Director, Langley Research Center, 1998-2010

(1.4 cubic feet)

Subseries Description: In August 2003 Bridges became director of NASA's Langley Research Center (LRC) in Hampton, Virginia. He served at the Langley Research Center until October 2005. Some of the highlights from this series included 6 back-up discs for Bridges' email and files from his duties at LRC; speeches; briefings; reports; "NESC Press Releases/Articles/Letters" that contain a variety of items related to the startup of the NASA Engineering and Safety Center. (Note: Per Bridges, "Sean O'Keefe sent me to Langley along with Ralph Roe as my Special Assistant to set up the NESC to strengthen the independence and capability of NASA's Safety Program."). There are a variety of other miscellaneous documents and material.

28. Email from Vic Lebacqz announcing the house cleaning by the new NASA Administrator removing most all of the SES's from the HQ ("and eventually from the Centers to put his personally selected team in place"), June 14, 2005
29. An email exchange between Vic Lebacqz and Bridges regarding his departure as Associate Administrator for Aeronautics Research, June 2005
30. Email exchange between the NASA Administrator and Bridges with regard to his recent visit to Langley where he was briefed on some severe budget issues imposed by the prior Administration, June 24, 2005
31. Email exchanges between Bridges and Vic Lebacqz regarding briefings to the HQ staff on looming budget issues at the Centers that would likely cause a formal RIF of civil servants because of the budget cuts to the Aero Research Programs at Langley, August 15, 2005 (Other email exchanges from July enclosed as well for background.)
32. NASA Performance Appraisal, 2004-2005 (Note: Per Bridges, "Downgraded by the HQ from Outstanding to Highly Successful because of the budget crisis and my eventual successful work with the staff to correct the problems—the staff of the Administrator were intimidated by me and described me as confrontational over these issues—see next item below for more.")
33. Email and telecom (notes) between Vic Lebacqz and Bridges regarding the downgrading of Bridges' performance appraisal and that of others in the Aero Research Centers, August 3, 2005
34. Letter from American Society for Engineering Management announcing Bridges' selection as the Engineering Manager of the Year, July 26, 2005
35. Email exchange between Bridges and NASA HQ with regard to inaccurate minutes of the Senior Management Council and decisions announced at the meeting by the Administrator that would have a profound effect on Langley with regard to the budget crisis, August 2005
36. *Aviation Week* article on "Missing the Boat", with regard to NASA's decision to cancel most of the life sciences research on the International Space Station, something that "Bridges opposed in budget meetings even though it didn't affect Langley, but would have a profound effect on the success of the ISS as a National Laboratory

- and on the solutions that were needed to proceed with long duration human space flights to Mars,” December 5, 2005
37. Speaking notes for Bridges’ announcement to the Langley Senior Staff that he planned to retire from the Agency in January 2006, September 16, 2005
 38. Newspaper clippings announcing Bridges’ retirement and the appointment of his Deputy, Lesa Roe, as the new Langley Center Director (Note: Per Bridges, “When I learned that Lesa would be named as the new Center Director, I agreed to step aside into a HQ staff position immediately to allow an orderly transition and avoid being a lame duck Center Director”), September 17, 2005
 39. Email from Bridges’ boss, Vic Lebacqz, regarding Bridges’ retirement announcement, September 16, 2005
 40. Email from Lesa Roe offering encouragement while Bridges performed a study for the HQ in his new role, September 16, 2005 (Note: Per Bridges, “The study was something I suggested. It involved creating a support structure at the HQ to integrate the support for NASA’s infrastructure now that Center Directors were to report to the Associate Administrator rather than to the programs. This disconnected the AA’s for the programs (Aero, Space Flight, Science, and Exploration) from the infrastructure that they had previously championed leaving the institutional support as an orphan. This would have been a disastrous structure had it not been fixed.”)
 41. Note from Astronaut Jim Halsell on Bridges’ retirement from NASA, December 2005
 42. Letter from Ames Center Director, Scott Hubbard, on Bridges’ retirement, December 14, 2005
 43. Email from Vic Lebacqz on Bridges’ retirement from NASA, December 2005

Series 8. Artifacts, 1957-2007

(13.85 cubic feet)

Subseries 1. Awards, Diplomas, and Decorations, 1967–2005

(4.4 cubic feet)

Subseries Description: This subseries consists of the many awards, decorations and diplomas that Bridges received throughout his career. The first manuscript box contains some of the smaller certificates that were presented to him. The corresponding medals had already been separated from the certificates, so they are housed in separate boxes within Subseries 3. Medals and Miscellaneous Memorabilia. Some of the certificates include: Distinguished Flying Cross, Air Medal, Air Force Commendation Medal, and Legion of Merit (First Oak Leaf Cluster). Some of the holders the certificates were in had begun to deteriorate. For the sake of preservation, the certificates were removed from the holders, the front covers were photocopied and placed in archival folders with the certificates. The holders are retained in a separate box.

Also found here are the plaques, 3-dimensions awards, and larger certificates that are housed in archival cubic foot boxes. Among these items are: Leithen -Tittle Distinguished Graduate award, presented to Captain Roy D. Bridges in recognition of being the top graduate USAF Aerospace Research Pilot School (ARPS) Class 70B, Edwards AFB, CA; a plaque from his service in Vietnam; B-1 Combined Test Force and USAF Test Pilot School plaques; Purdue University Distinguished Astronaut Alumnus Award; 35-Year Award plaque, presented to Roy D. Bridges, Kennedy Space Center, FL, 2000; Honorary Doctorate, Florida Institute of Technology and Purdue University, along with many other awards of distinction. Please refer to the follow listing to see the full extent of Bridges' commendations.

11. Small blue jewelry box with silver medal encased in plastic commemorating the Joint Performance Management Office established at Cape Canaveral Air Force Station in June 1998 to manage the Joint Base Operations Support Contract (JBOSC). (Per Bridges, "This contract was a joint initiative by Commander of the 45th Space Wing and me as the Director of KSC. The contract managed all infrastructure services on the two installations. This initiative won the Vice President's Hammer Award and saved millions of dollars over the previous separate contracts.")
12. Coins; 51F Challenger and STS26 Discovery in Plexiglas, presented to Colonel Roy Bridges, Astronaut Tribute Night, Cape Canaveral Chapter-AFA, April 1, 1989
13. Small commemorative cards, Purdue University Astronaut Reunion, Compliments of Purdue University President's Council, October 22-23, 1999 (2 packages)
14. STS-1 20th Anniversary Coins, April 12, 2001
15. Small box containing numerous NASA mission patches, circa 1980-2005
16. Small box containing numerous permits, passes, nametags, IDs, circa 1980-2005
17. Small box containing miscellaneous coins and pins, circa 1980-2005
18. Blow-up Space Shuttle stack signed by Bridges' teammates from the Lawrence Livermore National Laboratory. Note Per Bridges, "I was on a team that Northrop Grumman bid to run the lab but we lost to a team comprised of the University of California and others.") December 2007
19. Adhesive school logos; Air Force and Purdue, undated

Series 9. Oversized Materials, 1967-2006

(5.15 cubic feet)

Series Description: The items in the Oversized (OS) Series were separated out from the other series for preservation purposes. This series includes numerous awards, drawings, mounted flown Space Shuttle patches, personalized matted and

framed photographs, caricatures and mementos given to Bridges in appreciation of his service and leadership. Due to the varied nature of the material and the cumbersome size of the material, it is placed in chronological order within each box, but not throughout the entire series. Please see the complete finding aid listing.

OS Box 89 *Plaques, and Paddle, 1970-2005*

Item

1. UPT Class 70-08 Plaque, presented to Colonel Bridges by his students, Vance AFB, OK, circa 1970
2. Plaque, NASA Outstanding Leadership Medal, June 21, 2001
3. Distinguished alumnus paddle with inscription and photo, presented to Bridges by the United States Air Force Test Pilot School Class 02A, December 2002
4. Plaque, NASA Outstanding Leadership Medal, April 2005

OS Box 90 *Certificates, Matted Photographs, Flown Patches and Timeline, 1971-1985*

Item

1. Certificate and Photograph, NF-104A Climb to 101,700 Ft, Edwards AFB, CA, June 3, 1971
2. Society of Experimental Test Pilots Member certificate, April 8, 1976
3. Flown STS-5 mounted patch and photograph, presented to Bridges, Entry CAPCOM, JSC, TX, November 11-16, 1982
4. Flown STS-6 Patch and Entry maneuvers cue card, presented to Bridges, CAPCOM, Johnson Space Center, TX, April 1983
5. Flown timeline, STS-41C, presented to Bridges for Flight Data Support, Johnson Space Center, TX, April 1984
6. Photograph of "TS" over Clear Lake, TX from STS 51F, presented to Bridges by the Earth Observations Team, JSC, TX, August 1985 (signed on back)

OS Box 91 *Certificates, Matted Photographs, and Plaque, 1989-2003*

Item
