## Descriptive Summary

<b>Creator Information</b>	Grof, Stanislav, 1931-
<b>Title</b>	Stanislav Grof papers
<b>Collection Identifier</b>	MSP 1
<b>Date Span</b>	circa 1955-2012, bulk 1965-1979
<b>Abstract</b>	This collection contains writings that document the career and research interests of psychiatrist and author Stanislav Grof. It consists primarily of published research articles and clippings discussing the therapeutic effects of psychoactive substances as well as some first-hand accounts of transcendental experiences.
<b>Extent</b>	9 cubic feet (25 boxes)
<b>Finding Aid Author</b>	Stephanie Schmitz and Sammie Morris, 2008
<b>Languages</b>	English, German, Czech
<b>Repository</b>	Virginia Kelly Karnes Archives and Special Collections Research Center, Purdue University Libraries

## Administrative Information

<b>Location Information:</b>	ASC
<b>Access Restrictions:</b>	Patient Notes (Series I-D), Student Experiences (Series II), and Research Studies, Projects and Proposals (Series III-A) containing confidential information are restricted for 75 years from the date they were created. However, copies of the materials with the sensitive information redacted out are available for research.
<b>Custodial History:</b>	Stanislav Grof's papers were initially deposited with Betsy Gordon. In 2006 they were transferred from Betsy Gordon to Purdue Archives and Special Collections. Additional materials were donated by Grof to the Archives in 2006 and he continues to donate materials to the collection.

## **Subjects and Genres**

### **Persons**

Grof, Stanislav, 1931-

### **Organizations**

Sandoz Pharmaceuticals  
Maryland Psychiatric Research Center  
Esalen Institute

### **Topics**

Hallucinogenic drugs--Therapeutic use  
LSD (Drug)  
Neuropsychopharmacology  
Altered states of consciousness  
Psilocybin  
Mescaline  
Marijuana  
Ketamine

### **Form and Genre Types**

Annotated bibliographies  
Articles  
Clippings (information artifacts)  
Conference Proceedings  
Cd-roms  
Dvds  
Interviews  
Manuscripts for publication  
Pamphlets  
Presentations (communicative events)  
Research (document genres)

### **Occupations**

Psychiatry  
Psychology  
Psychotherapy

## **Biography of Stanislav Grof**

Stanislav (Stan) Grof, noted psychiatrist, author, consciousness researcher, and pioneer of transpersonal psychology, was born on July 1, 1931 in Prague, Czechoslovakia to Stanislav (a chemical engineer) and Maria Petnik Grof. Heavily influenced by the works of Freud early in his studies, Grof was inspired to become a psychiatrist and earned an M.D. at the Charles University School of Medicine in Czechoslovakia in 1956, and a Ph.D. at the Czechoslovakian Academy of Sciences in 1965.

Dr. Grof's interest in the clinical use of psychedelic substances was spurred in the 1960s when the Sandoz pharmaceutical company approached the Psychiatric Research Institute in Prague, requesting that studies be conducted on LSD-25 in order to ascertain whether or not the substance had therapeutic properties. Grof subsequently volunteered to participate in a research program which explored LSD as a tool for experiential training, allowing psychiatrists and psychologists to experience the "inner-world" of psychotic patients. He eventually became principal investigator of this program, and has gone on to devote his career to examining the therapeutic potential of psychedelic substances.

In 1967, he was invited to Johns Hopkins University as a research scientist, and in 1969 continued on at the Maryland Psychiatric Research Center where he served as Chief of Psychiatric Research and Assistant Professor of Psychiatry. In 1973, Grof became a scholar-in-residence at the Esalen Institute, a non-profit organization devoted to the exploration of human potential in Big Sur, California. While there, he authored books, lectured, and developed Holotropic Breathwork, an innovative form of experiential psychotherapy, with his wife Christina. Dr. Grof is also the founder and president of the International Transpersonal Association (ITA), and has organized major international conferences on transpersonal psychology.

Grof's major fields of research interest include therapeutic and heuristic aspects of non-ordinary states of consciousness, the use of psychedelics and non-drug techniques in psychotherapy, alternative approaches to psychoses, spiritual emergency and treatment of transpersonal crises, biology, brain research, and consciousness studies. He also maintains interests in other non-ordinary states of consciousness such as shamanism, Eastern spiritual systems, mysticism, the rites of passage of aboriginal cultures, and near-death experiences.

Dr. Grof is a Professor of Psychology at the California Institute of Integral Studies (CIIS) in the Department of Philosophy, Cosmology, and Consciousness, and also teaches in the Pacifica Graduate Institute in Santa Barbara, CA.

In October 2007, Dr. Grof received a VISION 97 award granted by the Foundation of Dagmar and Vaclav Havel in Prague. The foundation's mission supports cultural and social projects with the potential to bring meaningful change to the future.

Dr. Grof has written extensively on LSD and its use in psychotherapy and about other methods and types of psycho-spiritual work.

## **Chronology**

- July 1, 1931 Born in Prague, Czechoslovakia; son of Stanislav Grof and Maria Petnik Grof.
- 1950-1956 Student at the Charles University School of Medicine, Prague, Czechoslovakia.
- 1954-1956 Participation in clinical LSD research and the study of artisitic expression of psychiatric patients.
- 1956-1959 Psychiatric residency at the State Mental Hospital in Kosmonosy, near Prague.
- 1957-1960 Participating researcher in a multidimensional dynamic study of psychedelic drugs and anticholinergic delirogens in the Research Institute in Prague.
- 1959-1960 Outpatient Psychiatrist at the Psychiatric Clinic of the National Institute of Health, Prague.
- 1961-1967 Principle Investigator in a psychedelic research program at Psychiatric Research Institute, Prague, Czechoslovakia. Also involved in a team studying the mechanisms of psychogenic disorders and psychotherapy.
- 1965 Completes postgraduate training at the Czecho-slovakian Academy of Science, recieves Ph.D. degree (Doctor of Philosophy in Medicine).
- 1967-1969 Clinical and research fellow, Department of Psychiatry and Behavioral Science, Johns Hopkins University, Baltimore, MD.
- 1967-1973 Chief of Psychiatric Research, Maryland Psychiatric Research Center, Catonsville, MD. Assistant professor of Psychiatry at the Department of Psychiatry and Behavioral Science, Johns Hopkins University, Baltimore, MD.
- 1973-1987 Scholar-in-residence at the Esalan Institute in Big Sur, CA.
- 1987- Self-employed, conducting professional training in Holotropic Breathwork and transpersonal psychology, lecturing, and writing.
- 1994- Professor of Psychology at the California Institute of Integral Studies (CIIS), Institute of Psychology, Cosmology, and Consciousness, San Francisco, CA.

## Collection Description

### Scope and Contents of the Papers

The Stanislav Grof papers (1955-2008; 6 cubic feet) document the professional interests of Stanislav Grof over the course of his career. The collection consists mainly of scholarly articles that reflect his research interests during the 1960s and 1970s. Also included in the collection are electronic copies of Grof's artwork and writings, presentations, his doctoral dissertation, and a handwritten manuscript.

Other materials of interest include firsthand accounts of spiritual experiences written by Grof's students; annotated bibliographies; pamphlets and issues of periodicals on the nature of psychedelic research (some of which are vibrantly illustrated); and photocopies of unique items such as Joann and Timothy Leary's *Neurologic* and "Handbook for the Therapeutic Use of Lysergic Acid Diethylamide-25," by Blewett and Chwelos.

The Stanislav Grof papers are arranged in five series, two of which have been further arranged in subseries.

- I. Stan Grof's Writings and Biographical Information
  - A. Manuscripts and Typescripts
  - B. Published works
  - C. Presentations
  - D. Patient Notes
  - E. Biographical/Promotional Material
- II. Student Experiences
- III. Research Materials
  - A. Research Studies, Projects, and Proposals
  - B. Research Articles
  - C. Conference Proceedings
  - D. Bibliographies, References and Citations
  - E. Journals, Pamphlets, and Magazines (arranged by title)
  - F. Books, Reports, and Theses
- IV. Photos and Slides
- V. Correspondence
- VI. Miscellaneous Materials
- VII. Electronic Materials
  - A. Data CDs and DVDs
  - B. Multimedia CDs, DVDs, and VHSs

- C. Cassette Tapes
- D. Floppy Discs

## Arrangement

**Series I: Writings and Biographical Information** Series I contains information produced by Stanislav Grof. It is divided into five subseries: Manuscripts and Typescripts; Published Works; Presentations; Patient Notes; and Biographical/Promotional Material. Materials include Grof's four-page account of a dream; articles authored or co-authored by Grof from circa 1960-1993; papers that Grof has written and/or presented at conferences which may or may not have been published; his doctoral dissertation (1965); an article Grof conducted with Albert Hofmann in 1984; a first-hand account of a therapy session from one of Grof's patients [access to original is restricted until 2045; H ]; Grof's notes on the aforementioned patient [access restricted until 2045]; and clippings and biographical information on Grof from newspapers and magazines.

**Series II: Student Experiences, 1981** Series II comprises written accounts of students who participated in a workshop with Grof at the California Institute of Integral Studies. Items are arranged alphabetically by author's last name. These items available for research, however, student names will be redacted until 2056.

**Series III: Research Materials, circa 1950-2011** Series III consists of secondary source materials Stanislav Grof consulted during the course of his career and is divided into 6 subspecies: Research Studies, Projects, and Proposals; Research Articles; Conference Proceedings; Bibliographies, References and Citations; Journals and Pamphlets (arranged by title); and Books and Reports.

**Subseries III-A (Research Projects, Proposals and Studies)** is arranged chronologically and consists of an application to administer LSD for training purposes, as well as information on a research study concerning DPT (Dipropyltryptamine) assisted therapy, presumably undertaken by Grof. It also contains an outline of a proposed study concerning the "Narcotic Addiction-Psychedelic Therapy Research Program."

**Subseries III-B (Research Articles)** includes published and unpublished preprints, reprints, abstracts, and drafts of articles on the use of psychotropic substances as a therapeutic agent. It also includes book chapters, letters to the editor, and conference presentations. This subseries consists of both scholarly material as well as items that would appeal to a general audience. Articles have been arranged alphabetically by the primary author's last name. In cases where there are multiple articles by the same author, articles have been arranged chronologically by date when possible. A complete list of authors that appear in the subseries is available in Appendix One.

**Subseries III-C (Conference Proceedings)** contains selected papers and abstracts of the cancelled 4<sup>th</sup> International Congress of the European Medical Society for Psycholytic Therapy which was to be held in Prague, 1968.

**Subseries III-D (Bibliographies, References, and Citations)** contains a collection of articles and citations pertaining to Dipropyltryptamine, extensive bibliographies and article citations pertaining to LSD, and a bibliography on psychotomimetics.

**Subseries III-E (Journals, Pamphlets, and Magazines)** consists of journals which contain significant articles pertaining to or written by Stanislav Grof, or something pertinent to his research interests. Visually captivating items in this series include two issues of the *Observer* from 1966, a 1984 issue of *Syphinx* featuring Albert Hofmann on the cover, and an informational pamphlet on the Institute for Psychedelic Research of San Francisco State College. Other items of interest in this series include pamphlets entitled “God in a Pill?” and “Sessions Games People Play: A Manual for the Use of LSD”; a publication entitled “Hallucinations and Delusions” produced by the National Institute of Mental Health; and an informational pamphlet on phanerothyme.

**Subseries III-F (Books, Reports, and Theses)** contains seven items including the doctoral dissertation of Mary Elizabeth McCarthy; photocopies of unique monographs such as Joanna and Timothy Leary’s *Neurologic*; a handbook about using LSD in a therapeutic setting; and reports published by the *Militärpsykologiska Institutet* of Sweden.

**Series IV: Photographs and Slides** This series contains three photographs and one slide. Two of the photographs depict nature scenes and are dated May, 1971. One depicts three people on a covered porch, and has a caption written in Czech. The slide depicts a woman seated on a park bench.

**Series V: Correspondence** This series contains Grof’s correspondence concerning the Esalen Institute and the screenplay *Brainstorm*. The correspondence also documents Grof’s achievements, as well as a letter from the Czech president. This series includes an email between Michael Horowitz and Ralph Metzner and a letter to Dr. Willis Harman from and signed by Albert Hofmann.

**Series VI: Miscellaneous Materials** This series contains a variety of materials from Grof’s collection that are not representative of any of the series in his collection. There is a typed Tribute to Willia Harman that has no author, information on meetings, seminars, and workshops at the Esalen Institute; the series also contains what appears to be a typed presentation titled *Psychology of the Future: Lessons from Modern Consciousness Research* by Grof, a certificate from the *Institut De Recherche Sur Les Expériences Extraordinaires*

declaring Stanislav Grof as a member of honour, and a two page document by Roger Liggenstorfer and Chris Heidrich discussing Albert Hofmann's estate in German.

## **Series VII Electronic Materials**

**Subseries VII-A (Data CDs and DVDs)** contains Stanislav Grof's writings, presentation slides, biographical material, artwork, and photographs.

**Subseries VII-B (Multimedia CDs, DVDs, and VHSs)** contains lectures, interviews, and presentations.

**Subseries VII-C (Cassette Tapes)** contains evening talks presumably conducted at the Gathering of the Elders event.

**Subseries VII-D (Floppy Discs)** contains transcriptions of interviews conducted at the Council of the Elders Gathering. The discs may contain materials from other workshops. Some of the discs are not labeled and the content is unknown.

**Descriptive Rules** Anglo-American Cataloguing Rules, 2<sup>nd</sup> Edition / Describing Archives: A Content Standard

## **Processing Information**

All materials have been rehoused in acid-free folders and boxes. Rusted staples have been removed from the materials and plastic paper clips or file folder inserts have been used in their place. Oversized materials have been kept in their original series; however, items requiring storage in a larger container have been moved to a box labeled "OVERSIZE" and a separation sheet has been put in place where items have been moved from original location within the series.

Series III-2 (Research Articles) appears to have once been arranged with an alpha-numeric system, but upon consulting with Stanislav Grof about the practicality of maintaining this order, the alpha-numeric system was abandoned in favor of alphabetizing the articles by author's last name.

Portions of the collection contain sensitive information and have been restricted in order to respect confidentiality. These items have separated from their original location in the collection and moved to Box 16. They will be made available for research in 2083.

## **Additions**

Materials continue to be received for this collection, and archival processing is ongoing.

## **DETAILED DESCRIPTION OF THE COLLECTION**

### **Series 1: Stanislav Grof Writings and Biographical Information**

#### **Subseries A: Manuscripts and Typescripts**

<u>Box</u>	<u>Folder</u>	
1	1	Personal account on Esalen Institute letterhead, circa 1963-1967
1	1	Papers with handwritten notes
1	1	“Basic Perinatal Matrices” charts
16	1	Oversize “Basic Perinatal Matrices” chart
1	1	“Diproplyptamine (DPT) as an Adjunct in the Counseling of Cancer Patients”
1	1	“Comparison of the conceptual frameworks of Sigmund Freud and C.G. Jung”
1	1	Stanislav Grof interview with Dr. Albert Hofmann at the Esalen Institute in Big Sur, California, 1984
1	1	“The Holonomic Theory: A New Paradigm for Consciousness Research”
19	2	“H. R. Giger and the Zeitgeist of the Twentieth Century.”
